

THE COM DEALL TRUST

FOR PROFESSIONALS WE OFFER

The Com DEALL CERTIFICATE COURSE on Early Intervention

(July to December, 2018)

- ❖ Admissions open to doctors, OTs, PTs, SLPs, Psychologists, Special educators and other rehabilitation professional with interest in Com DEALL's model of early intervention (EI).
- ❖ Course specially designed for professionals who are working or are interested to work with children with disabilities.
- ❖ 6 months long course via distance mode
- ❖ Supervised clinical assignments for 2 months, to be carried out under the supervision of a professional approved by Com DEALL.
- ❖ Three days of contact classes will be conducted at the Com DEALL Head Office in the beginning of the course.
- ❖ Candidates are expected to appear for the exams at the end of the course for 1.5 days.

COURSE OUTCOMES:

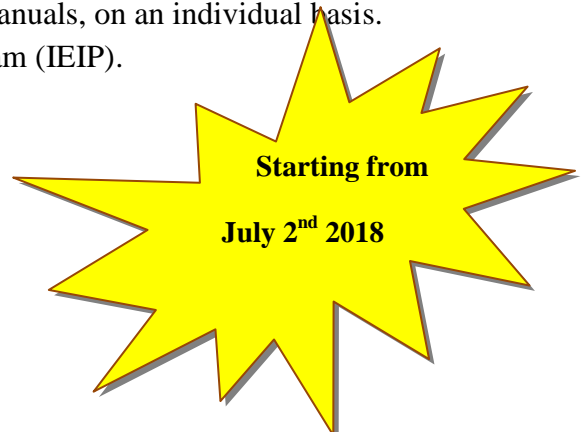

Course outcomes would vary depending upon the qualification of the professional joining the course. For example- it would enhance the knowledge of a SLP/OT/PT/Psychologist when providing intervention in the area that they are qualified in, additionally it would provide the professional a holistic understanding of the child from a multidisciplinary perspective. This would help in better inter-professional work, thereby improving the quality of intervention.

Similarly Physicians undertaking this course would have a holistic understanding of the child's requirements, enabling them to work better with inter-disciplinary teams, helping them to guide families holistically.

Health professionals who do not have a specific qualification (e.g. OT/SLP etc) can work under the supervision of trained professionals, they can also work as liaisons since they have a multidisciplinary understanding of individual children's profiles.

By the end of 6 months, candidate will be able to:

- ❖ Understand how autism and other developmental disabilities impact the development of the child.
- ❖ Assess the child across major developmental domains.
- ❖ Implement EI for children with ASD and other developmental disabilities, within the Com DEALL framework and as per the Com DEALL manuals, on an individual basis.
- ❖ Formulate Individualized Early Intervention Program (IEIP).
- ❖ Collaborate with families for better outcomes.

APPLICATIONS:

Eligibility criteria:

- ❖ Doctors, rehabilitation and paramedical professionals, nurses, clinical psychologists and special educators,
- ❖ Bachelor degree in any of the above disciplines
- ❖ A minimum of 6 months of (personal or professional) exposure to ASD or other developmental disabilities.
- ❖ Basic proficiency in English

Feedback

Feedback given by our participants:

Dr. Sheelu Srinivas MBBS, ENT (Pediatric ENT Specialist)

I thoroughly enjoyed the learning at Com DEALL for the last six months. A very well planned program which included reading materials, case taking, intervention planning with manuals, MCQ's and contact lectures.

The best part was, supervised parent interaction and observation of sessions. It gave me hands on experience.

The amount of printed material and manuals shared during this period shows Com DEALL's interest in sharing Dr. Pratibha Karanth's wisdom of more than 5 decades in this field with others who want to make a difference for these children.

The course increased my understanding of children with communication disabilities and the treatment options available to these children and families. It has also given me confidence.

Here I must mention that the teacher's and supervisor's were very open about other approaches available for Children with autism spectrum .This kind of learning environment is a rarity in the present day commercial world.

Overall, Com DEALL and its team are genuinely interested in making a change in the lives of children with communication disorders and autism spectrum.

Dr Varsha Saxena, Consultant Pediatrician:

I have enjoyed the Com DEALL training. In spite being a Pediatrician and learnt about development disabilities this program has been an eye opener for me. It has made me confident to assess the children with development disorder in my day to day practice. The Comdeall model has given me a comprehensive material for early diagnosis in children with developmental disorders.

The Com DEALL program is systematic, simple in a nut shell deals with all aspects of childhood development. Com DEALL is all about working as a team.

This early intervention program is crucial to helping the child and family through the difficult early years. The training provided by Com DEALL provided me the skills to do hands on work with autistic children and helped me deal with children to developmental disabilities more effectively. I have already started using the techniques in my practice and plan to take it forward as I gain more confidence.

Disclaimer:

The Com DEALL Certificate Course in Early Intervention program is designed as an add on training for professional to enable them to work on early intervention for children with Autism Spectrum Disorders (ASD) and other developmental disabilities in the Com DEALL model.

The course does not qualify the participants to train other individuals in Early Intervention in the Com DEALL model or set up a Com DEALL unit.
